# GOVERNOR ASKS FOR BOND ISSUE

MEANS WORK FOR UNEMPLOYED

Richmond—With a favorable report by the Senate Roads Committee by a vote of 8 to 3, and the expressed approval of Governor Trinkle to a bond issue this session, Senate Bill No. 264, which provides for the authorization of a bond issue of \$2,000,000 for road purposes is being the center of attention in legislative circles. The amicable settlement of the fight which was threatening over the plan of reorganizing the State Highway Department brought about by the Governor has paved the way for the early consideration of how sufficient money can be provided for the construction of the State Highway system in a reasonable time. The road bond measure will probably come up in the Senate this week. Senator Vaughan, Goodrick, Holt, Dodson, Corbett, Miller, Cannon, Hyatt, Mills, Early and Layman are the patrons of the bill. It is generally forecasted that the bond measure will receive a comfortable majority in the Senate. The bill will then go to the House where the big fight will take place. In view of the pronounced stand of the Governor in favor of the issuance of bonds now, it is believed that the opposition there will be overcome.

Senate Bill No. 264 provides that bonds shall not be sold at more than four and a half per cent interest or less than par. Adequate provision is made for a sinking fund, which will retire the bonds serially, at the expiration of ten, fifteen, twenty, twenty-five and thirty years.

A feature of the bill is that it gives a bond commission composed of the Governor, Treasurer and Attorney-General discretionary powers in floating bonds. If in the event the reorganized State Highway department does not function properly, the Commission can safeguard the interests of the State by refusing to issue the bonds.

Proponents of the bond issue point out that there will be no excuse for increased taxation to take care of this issue with the present sources of revenue allowed to remain. It is declared that the proposed road tax of one cent per gallon will more than meet the funding of the issue. It is also contended that the cities and corporations pay more than sixty-six per cent of the State taxes and yet the entire amount is expended in the country.

Governor Trinkle made his first pronouncement in favor of a bond issue by the present General Assembly at the banquet tendered the members of the two houses and State officials in Norfolk on Washington's birthday. His statement was received with the wildest enthusiasm on the part of the 600 in attendance.

Governor Trinkle based his recommendation to the General Assembly for a reasonable bond issue on the grounds that the money needed for the State highway improvement can be had at a rate of interest which the State can afford to pay. In addition to supplying the great need of the State for building roads more rapidly than the current funds will allow, the adoption of an enlarged road building program would give work to the unemployed. Greatly reduced prices of both labor and materials were given by the Governor as added reasons for building roads now.

He stated that Virginia need not fear a bond issue as General Assembly. He pledged the people of the State that politics would have no part in the selection of the personnel of the commission and that he would appoint the very best men to be found.

United States Senator Claude Swanwick, who followed Governor Trinkle, sounded a key note of optimism in backing up the Governor on his stand. He said that this is no time for pessimism. The Commonwealth, he said, must not hold back at this time in planning for the development of its resources.

When his father asked one young hopeful why he joined the poultry instead of the corn club he said: "I don't have to plow chickens." Hasn't he the "Bar mark" of a politician?

You who are biblically inclined read the first three and last three chapters of the Bible and see how beautifully they harmonize the first three tell all about the perfect earth before sin entered the last three tell of the beauties of the perfect earth after all sin has been wiped out and the earth restored to perfection.

The Vera high school has organized a corn and poultry club with an enrollment of 16 members. George Abbit Jr. was made president and Oly Childrens secretary.

Mrs. Allen nowlin is making her home with her daughter, Mrs. Walker O'Brien, since the death of her husband last summer.

The spelling match given by the Woodrow Wilson Literary Society of Liberty Chapel was quite a success. Allen Carter captured the prize, a box of candy for standing up the longest.
